

Withstands car impacts
and maintains parking lot
appearance

PPS. Flexible post for parking lots

PPS flexible post for parking lot signs flexes on car impact and then returns to its original position. PPS posts are ideal for private car parks, shops, hotels and condominiums. PPS flexible posts minimize damage to vehicles, protect parking lot surface and eliminate repair costs over the years.

Ideal for:

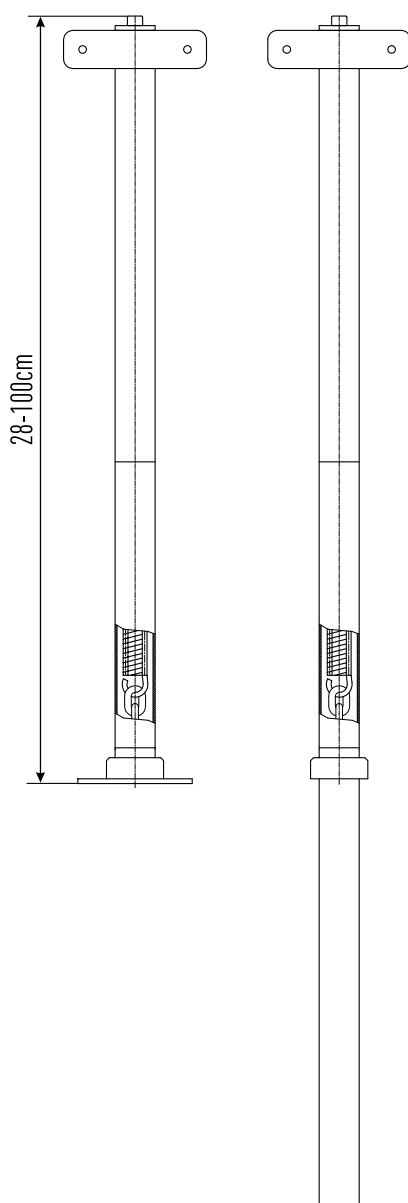

- private parking lots
- shops
- hotels
- condominiums

- flexes upon car collisions
- minimizes damage to vehicles

Ground plate
installation

Concrete
installation

- withstand car impacts, flexing upon vehicle collisions
